We can sympathize with the little boy who bit his thumb just because it "felt so good when he stopped"—we're in much the same fix on the cloak question. Every time we jab the knife into our cloak profits it hurts, and hurts like fury, too, but our joy will come when we've stopped slashing and our cloak department has been swept clean of its stock.—Jack Porter.

R. R. Stubleit, dish-washer at the Morrison restaurant, swore out a warrant Saturday afternoon for Kelly Foster, the negro cook, for abusing him. Judge Peacock heard the case, and it developed that there was nothing in the case, only that Stubleit was very badly frightened at what he thought the negro would do. The case against the negro was dismissed and Stubleit was given some sound advice by the Judge.

Artesia Racket for a good smoke. tf

The "harvest moon" never shed its rays upon lovelier autumn tints scenes than are at present to be viewed on our counters of dress goods. This month is pre-eminently the month when nature dresses herself in her grandest plumage. All the rich olives, garnets and red browns, all the lights and shadows of forest and heather are caught by the artistic eye of the manufacturer and reproduced in the loveliest silk and wool fabrics ever by man invented.—Jack Porter.

He is ex-Dean of the dental department of the state of Illinois. Dr. Brown says, "I am highly pleased with Roswell as my wife's health has been wonderfully benefited since we have been here. We have been to Phoenix and other points in Arizona, but she did not receive any benefit until we came here and on this account I would not exchange Roswell for Chicago and New York combined. A Message.

Live thou thy life, And live it with a zest, Discovering to the world the hidden best Which dormant in you lies, And God will do the rest—Live thou thy life.

Your life is waste when only vain regret, Repining, envying, has occupied your life; Strive these most hurtful feelings to forget, And cease this waste of force—this trivial strife.

The richest of the earth are those who strive And labor in the world with best intent. Their wealth and happiness while here they live Coming from mind at peace, serene, content.

Sighest thou for wealth? It multiplies your cares, With sudden gain your mind is numbed, And you are easy prey for schemers' snares.

Why sigh for wealth? Would you be wise? And envy men the knowledge they acquire? Could you but once review the time they spend Gathering littles—burning with unsatisfied desire To know—with discontent abiding to the end—

Why sigh for learning? The talents still are scattered among men; Some have as low as one—yet some have ten To whom is given much—much is required, For so tis written in the Book inspired.

Use your best talent to so serve your Lord That you may claim for duty done—reward.

WALTER MOIR, Roswell.

MILITARY INSTITUTE.

Military Department Thoroughly Organized for the Session.

Although more cadets have reported for duty at the Institute this fall than heretofore, every department has been thoroughly organized and all is working with great regularity and smoothness.

The cadets have all been graded and assigned to their respective classes. The greater number were prepared for the Collegiate classes, which makes a very small Preparatory department much to the pleasure of all concerned.

Capt. C. N. McWhorter is training the baseball players and will have them in condition to play during the fair, but owing to the fact that Thomas, last year's pitcher, did not return, the team will not be as strong as when the Amarillo boys met their defeat.

Major Wright, the new Commandant, has been hard at work training and organizing the cadets into a battalion. He has them divided into three companies, and yesterday they went through battalion parade for the first time this session.

The band is again in charge of Prof. Jno. Fletcher and was in splendid form at yesterday's parade, although they have only been organized for a little over a week.

Yesterday an order was published before the cadet corps appointing officers and non-commissioned officers for the session, and was as follows:

"Headquarters N. M. M. I.

"Roswell, N. M., Sept 18, 1903.

The bath and the sanitary arrangements of the house should be the first consideration. The nearer these are to perfection the fewer demands there will be upon doctor and drug store.

Our plumbing work is as near perfection as skill, experience and the use of high grade material can make it.

We charge enough for our work to insure high quality but not more than is fair.

"Are you a tenderfoot?"—not in the wild western sense, but in the sense of having tender feet. If you are, we want to fit your next pair of shoes for you. There's a great deal in the way a shoe is first put on, and the way the foot settles into it. If it is tight where it should be and loose where it should be there is very little trouble. We make a study of these things.—Jack Porter.
